SPIKED GOLF COVID-19 SIGNAGE

ALL SIGNS AVAILABLE PLATE ONLY OR SPIKED

Durable, professional, simple and clear signage to direct people and provide important information.

12" x 10" PLATE SIGN

12" x 10" SINGLE SPIKE SIGN

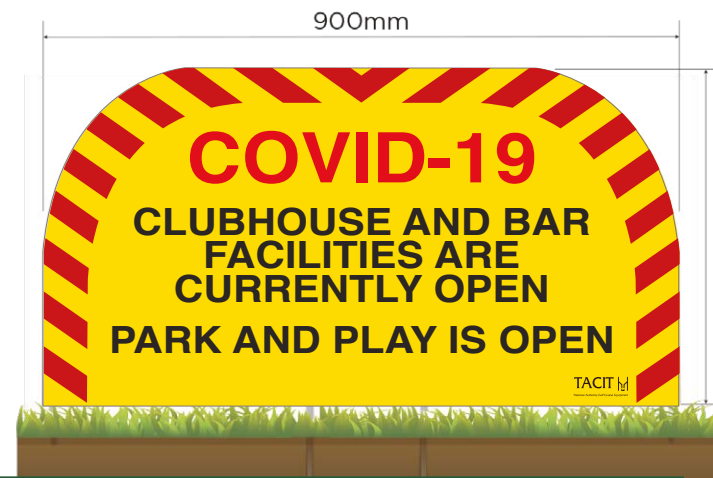

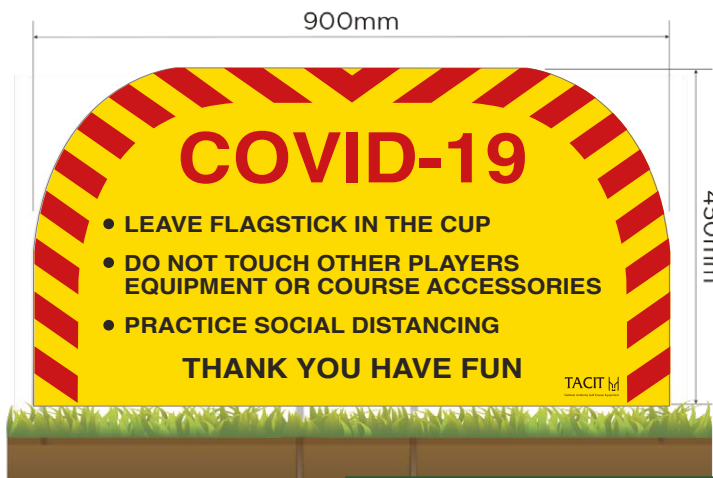

18" x 12" TWIN SPIKE SIGN

18" x 12" TWIN SPIKE SIGN

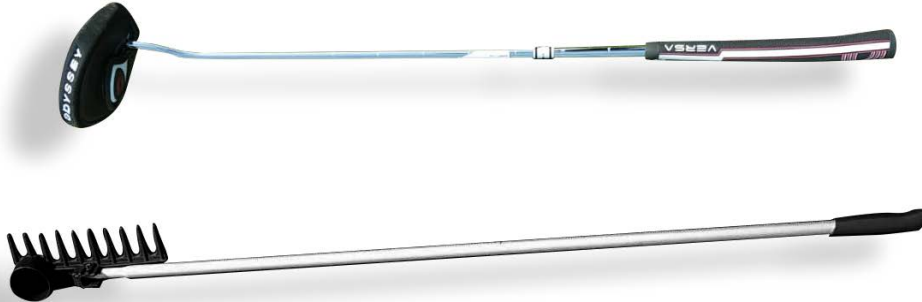

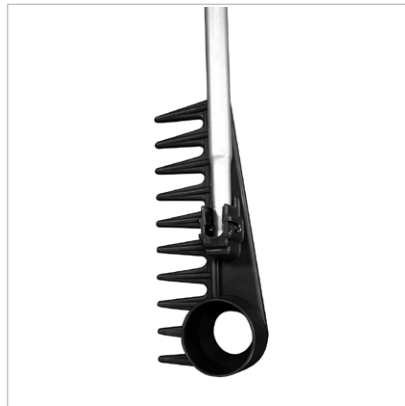

TACIT BARRIER HOOP COVERS

MEMBERS PERSONAL FOLDABLE RAKE

Existing bunker rakes do not need to be used or touched if golfers carry their own foldable rake. Complete with ball retriever cup, the plastic rake head is tough and folds over so that the rake and handle easily fit and can be carried inside a golf bag. Weighing in at only 0.18kg, which is less than half the weight of a normal golf club, the foldable rake will not burden a golfer carrying a bag or pushing it on a trolley; what it will do is help to reduce the potential risk of catching and spreading COVID-19.

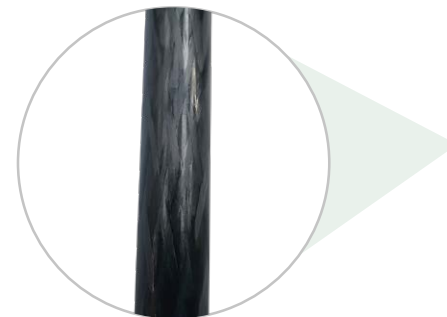

TACIT PROTECT

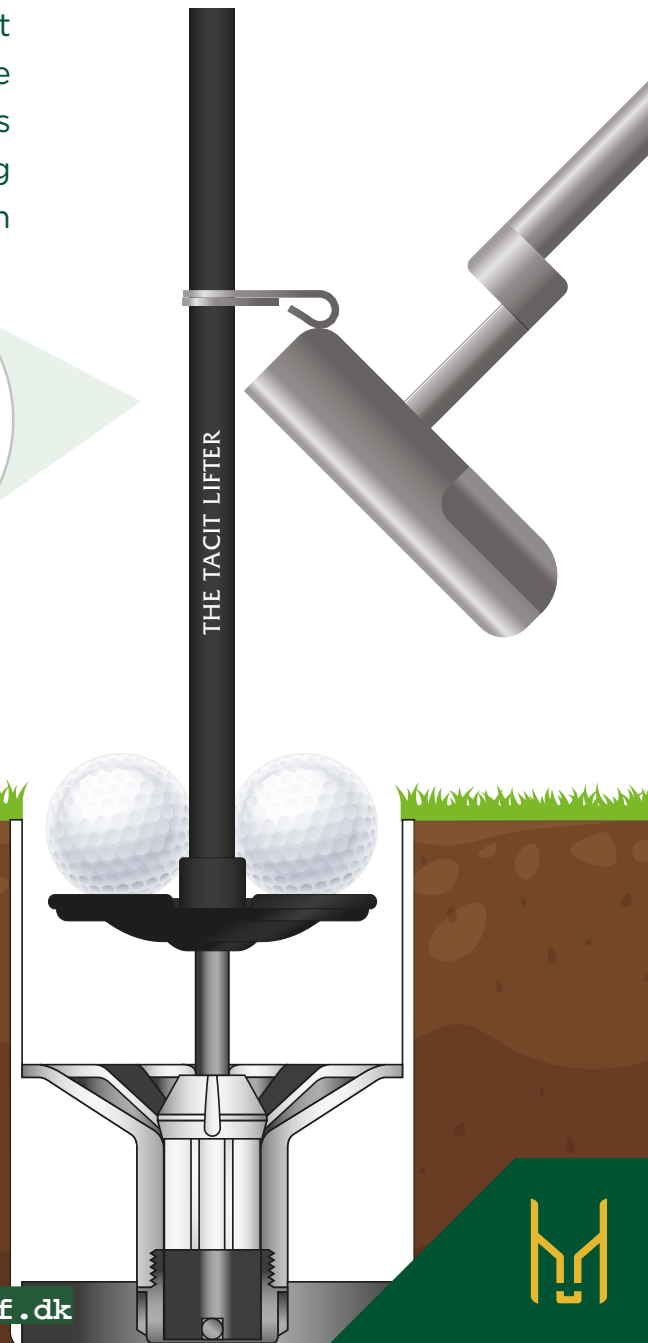

TACIT LIFTER AND COVID-19 CLIP

Reduce the risk of contact and the touching of course flagsticks by installing the Tacit Lifter with the COVID-19 Clip - simply leave the flagstick in, putt out and golfers will be able to retrieve the ball by positioning their putter under the clip and lifting upwards. This means they do not have to touch the flagstick: significantly reducing the risk of catching or spreading COVID-19. Available for full length flagsticks on course and flagsticks on putting greens.

**CARBON FIBRE
SHAFT**

TACIT LIFTER BASKET WITH SLIT

Open Basket

The slit in the basket allows it to be placed at the bottom of the flagstick for normal play or 5 inches above the ferrule for COVID-19 Safe Play.

COVID-19 safe positioning allows the ball to be removed from the holecup without touching any equipment.

The Tacit Lifter Basket with slit will fit Javelin Pins or 5/8 pins with the addition of a 5/8 pin placement collar.

SLIGO DOUGHNUT

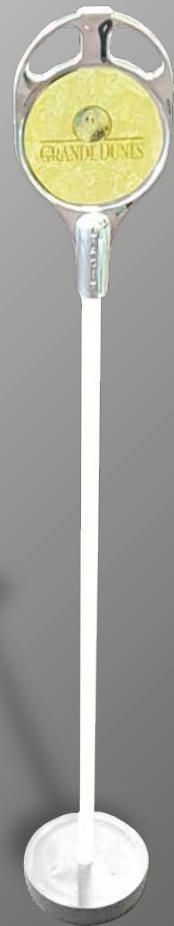

The Sligo Doughnut fills the cup with expanded foam so the ball cannot drop into the holecup. The Sligo Doughnut fits to the flagstick with the pin remaining in position. Enables COVID-19 safe play as there is no reason that the flagstick or the hole to be touched at all.

Fits all flagstick and holecups.

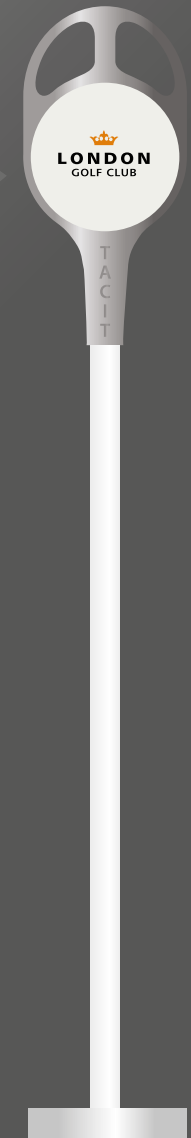

CUPLESS PUTTING MARKER

Reduce the risk of contact and the touching of practice putting green flags / stems by installing a cupless putting green marker.

AND BRAND MARK HERE**

DO NOT TOUCH PIN WARNING INDICATORS

In order to conform to R&A recommendations, there is a requirement for signage on the flagstick, letting players know they should not touch the pin.

Tacit has provided three options:

PIN FLAG

PIN PLACEMENT FLAG

HOLE CUP WRAP

BALLWASHER COVER

Take your ballwasher out of play with this convenient cover. Simply drops over the ballwasher and ties securely underneath. Makes the ballwasher less likely to transmit COVID-19 even if accidentally touched. Available as standard in green and black or can be customised in club colours or branded with your logo.

STOCK SAFETY DECALS

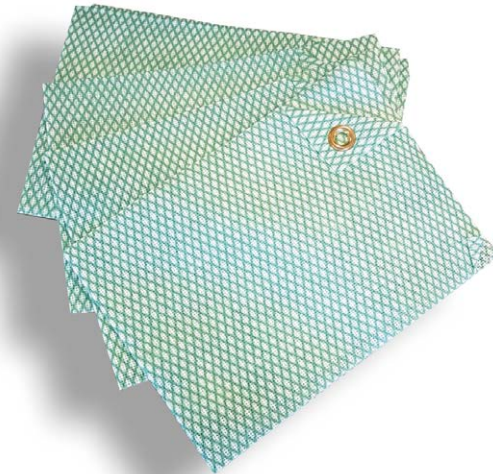

Any additional health and safety decals can be supplied along with specifically designed and required COVID-19 signs. Make sure restricted areas are clearly defined to minimise entry and contact, include advice on hand washing and use of sanitiser and importantly consider how best to manage deliveries with some signs that show clear guidance and procedure.

PLAY SAFE

Move ball washing liquid will reduce COVID-19 being passed by contact of golf balls. Simply pour into an existing ball washer unit and the Move liquid will ensure golf balls are cleaned. The use of hand sanitiser and installing sanitiser stations around a golf club is key to reducing the risk of COVID-19. Make sure that in addition to hand sanitiser, surface spray disinfectant is used along with rubber gloves and tea towels to clean down and disinfect machinery after use.

ANTI TRANSMISSION MASKS

Over the coming months anybody in social or group situations will be encouraged to wear cloth masks to stop the spread of COVID-19. Tacit are making 3-Ply - 1 woven, 2 random mesh face masks exclusively for the golf industry.

Rather than give a medical look to staff or take away vital PPE from NHS staff, these masks will provide a corporate image while keeping staff, guests and members safe from COVID-19.

Standard masks are available in three colours - blue, red or yellow.
Fully customised masks can also be made with any design or colour of your choice
